V. Environmental Health Program Update

Mr. Weisdack read the proposed increases for the state mandated programs. These increases are from the state level. Once the increases are effective, the Health District will pass the cost along to the operators of those programs.

A. Sewage Rules Update

There is nothing new to report on the sewage rules. It is anticipated that the law will become effective in July 2009.
VI. Personal Health Services Update

Mr. Weisdack introduced Dan Mix who was recently appointed as Personal Health Services Director.

Mr. Mix reported that Jay Becker, the new Disease Surveillance Specialist is settling into his role quite well. Mr. Beck recently contacted all practicing Geauga County physicians and provided them with updated forms, a general questionnaire and other general information regarding when illnesses must be reported to the Health District. He will also be visiting the physicians personally as a follow up.

Geauga County has had two confirmed cases of salmonella linked to the peanut product recalls. The website has been updated to provide residents access to the product recalls.

Mr. Mix stated that two online tools have been set up to enable the Health District to stay in communication with the public health preparedness contacts. An online call service can be triggered from anywhere by accessing the system, recording a message and selecting the audience. The other tool is a fax service that works in a similar manner. We recently had the opportunity to test the fax system. The targeted audience received the fax simultaneously. This cost us a total of $6.65 for the service to send to 187 physicians. We previously had sent a fax to the same audience and incurred long distance charges in the amount of $36.00.

Beginning January 2009, the IAP budget has been increased from $20,000.00 to $34,000.00.

Mr. Mix stated that he is still awaiting word on the future of the CFHS grant. CFHS will become changed to Women and Children’s Safety Net. The objective will be changing from a hands-on service to an education and referral system. This change in objective will not address the needs of Geauga County’s Amish population. It appears that the Health District may need to refund over $5000.00 due to an oversite by the project director for CFHS. A budget revision was not submitted and was subsequently disallowed by the State. Mr. Mix stated that he has appealed the decision and expects to have a response soon.

The Help Me Grow grant will be supervised by ODH for the 2009-2010 grant year, but will be shifted to the Department of Education in 2010-2011. The Health District performs newborn home visits and provides educational materials and referrals to the parents. This will discontinue in June 2009. We currently receive $130.00 per home visit.

A. WIC

The WIC caseload is currently at 897 clients. A request for additional funds has been requested to cover unforeseen expenses related to the increased caseload.

B. Health Education

WIC has declined a mini-grant, which would be used to teach food education in local schools. We previously accepted this grant, but found that the $900.00 that was received to administer it was not enough for the amount of work involved.
