VI. Environmental Health Program Update

a. Sewage Update

Mr. Weisdack reviewed the total number and type of sewage permits issued for 2013. He also provided information on the permits issued to date for 2014.
Mr. Weisdack has provided a resolution to the HDAC secretary to distribute to the townships, villages and city. This resolution declares opposition to the proposed sewage rules. We have received one resolution back so far.

There still is no word on whether ODH is going to address any of the comments made regarding the proposed sewage rules. Mr. Weisdack and the staff will be meeting to review the rules to see what changes we can expect. Some of those changes may need action by the Board at a later date.

Mr. Weisdack plans to go to JCARR to provide testimony opposing the proposed sewage rules.

b. General Information

Mr. Weisdack has asked the HDAC secretary to contact any new trustees or council members about having a meeting to review the Ohio Revised Code and what role they play when it comes to the Geauga County Health District budget.

Mr. Weisdack is beginning to develop the 2015 budget and the annual report.

VII. Personal Health Services Update

a. Public Health Emergency Preparedness

The staff is planning a tabletop exercise based on a foodborne outbreak. They continue to prepare for our annual SNS Assessment in March.

The Board was asked to approve a contract with NACCHO for the 2014 MRC grant as well as the budget for that grant.

The Board was asked to also approve the 2014 PHEP budget of $107,547.00. This represents a 14% increase over projected funds.

b. Disease Surveillance

Mr. Mix reported that the 2013 communicable disease report rate was higher than in 2012.

Flu activity for January 2014 is currently lower than last year. There have been seven reported influenza hospitalizations and regrettably, one death. Activity throughout Ohio is now widespread.

In December, there was a case of foodborne illness reported. Several people became sick after eating at a local restaurant. Unfortunately, there were no food samples or stool samples collected. Upon inspection of the restaurant, no problems were found.

A total of 27 communicable disease investigations were conducted in December.

c. Nursing Services

During the month of December, the nursing staff provided two Amish Well Child Clinics, five children and adolescent immunization clinics, four Friday Morning Adult clinics and four Senior Center clinics. That included physician visits for 30 children, 289 vaccinations given to 109 children, 32 adult immunizations, 73 flu vaccinations, 14 TB tests and 58 blood pressure screenings. The nurses also provided 29 vision screenings that resulted in providing glasses for 20 children. There were four newborn and two BCMH home visits as well.

Last month ODH assured us that we would be provided with adequate vaccines for the Amish community as well as uninsured children and adolescents. They have extended our deadline to July 1, 2014 for providing alternate vaccines for insured and underinsured. We have been working with VaxCare to remedy the situation.

VaxCare has a new program which goes into effect this year that will protect us against uncollected claims. Under the new program, one additional step at time of service will protect us against paying for vaccine costs on uncollected claims.
d. WIC

The WIC caseload for December was 789. This is a 2% decrease since November. Weather and holidays played a factor in the no-shows.

e. Administration

The Board was asked to approve a contract with Time Warner Cable for access to the building. This will allow them to upgrade our current internet service which has been contracted through ODH. This has been approved through the county maintenance department and IT department.

The Board was asked to approve a five year lease agreement with NeoPost for mail processing equipment. Our current equipment is over six years old and the cost for the maintenance agreement has increased dramatically.

f. Accreditation

Mr. Mix stated he has obtained the training CD from the Ohio Association of Boards of Health. As part of HB 59, all Board members must have 1 CEU per year.

Mr. Mix stated that work continues on developing our strategic plan as required by the accreditation-preparedness.
