VI. Environmental Health Program Update

a. Sewage Rules Update

Mr. Weisdack stated that there has been no news from ODH about the proposed sewage rules. There are rumors that the implementation date would be in August or even possibly not until 2015.

Mr. Weisdack reviewed the number and types of sewage disposal permits issued to date.

b. General Information

Mr. Weisdack stated that we recently had a survey of the pool and state camp programs. When the fees were adopted many years ago, the State fee was included. This was not the proper way to adopt the fees, so the Board was asked to re-adopt the pool and state camp fees.

The Board was asked to approve the appointment of Tammy Spencer to act as the Geauga County Public Information Officer. This is to fill a position that recently became vacant. This would be only three or four times per year.

The Board of Health is being asked to sign an MOU for the Phase 2 Stormwater program. EPA is requiring each county to have a stormwater plan. There are several different agencies that would be involved in this plan, including the health district. Mr. Weisdack received the MOU just a few days ago.

After review of the MOU, Mr. Weisdack stated he did not agree with the section indicating what role the health district would play. The Board discussed the fact that there was not enough time to review the document and confer about it as a Board.

VII. Personal Health Services Update

a. Public Health Emergency Preparedness

The staff continues to attend the Regional MMRS meetings each month. Regional funding is providing for two immunization storage carts that will be used for two primary PODS.

The 2015 PHEP funding appears to be fairly flat. We will be submitting our PHEP RFP by March 21, 2014.
The health district is working with DES on updating the county mitigation plan. Beginning at the end of March, the Geauga County Health District will be part of the planning team for the special needs population.

The budget for FY2015 is being prepared. Tentatively, base funding will reflect a 6.7% decrease from 2014 and 18.2% from our portion of the award.

Disease cases remain low, including flu.

c. Nursing Services

The nurses also provided 48 vision screenings that resulted in providing glasses for 34 children. There were nine newborn and five BCMH home visits as well. Sixteen communicable disease investigations were conducted.

On April 24, 2014 we will conduct our National Public Health Performance Standards assessment (NPHPSP). This assessment involves a large number of public and private agencies that deliver public health services to residents. This assessment is a CDC and NACCHO instrument that has been used for the past 8 years by local health departments. The Board members were encouraged to attend.
