VIII. Personal Health Services Update

The regional Ebola planning group will complete its planning with a tabletop exercise on May 18, 2016.

The Geauga County Healthcare Coalition continues to meet. Current members include UH Geauga Medical Center, Holly Hill, Burton Healthcare, DDC of Middlefield and Middlefield Care Center. We are trying to include representatives from Geauga County Board of Mental Health and Geauga County Department of Emergency Services.
The Board was asked to approve the FY2017 Public Health Emergency Preparedness (PHEP) budget, July 1, 2016 to June 30, 2017. The Board of Health must match funds in the amount of $7,400.00 as part of the grant requirement.

b. Disease Surveillance

The disease count for January was 42. There was a slight increase in flu cases.

The staff investigated three reports by the Ohio EPA about high levels of lead in public water supplies in three separate locations. These locations included Gurney Elementary School, Bainbridge Center Building and ICASI Culinary School. Site visits were conducted and the staff confirmed the management of each facility was aware of the high lead levels and had already taken steps to prevent the use of water for drinking and cooking. They had already arranged for alternative drinking water for students and tenants. Gurney School notified parents that the health district would provide blood lead level screening for students if they were concerned. To date, we have not received any calls asking for the screenings.

Mr. Weisdack stated that his feeling was that in a public health emergency such as this, the cost of the screening would be absorbed by the Geauga County Health District. The Board agreed that the screening should be provided at no charge.

c. Nursing Services

During the month of January, the nursing staff provided one Amish Well Child Clinic, 4 children and adolescent immunization clinics, 3 Friday Morning Adult clinics, and 3 Senior Center clinics. Included were visits for 12 children at the well child clinics, 136 vaccinations given to 48 children, 17 adult immunizations, 74 BP and 3 TB tests. The staff visited 19 parochial schools providing services to 459 students.

The Board was asked to approve a revised budget for the CFHS grant. This is due to ODH extending the contract from June 30, 2016 to September 30, 2016. This will align it with the federal grant funding cycle.

d. WIC

The WIC caseload was 721.

Mr. Mix stated that Ohio WIC has established a quality improvement goal to increase the number of children retained in the WIC program until they are 5 years of age. In response to that goal, Geauga WIC will begin mailing 1-year birthday cards inviting parents to continue WIC services and distribute a flyer to promote WIC services to children between 1 and 5 years of age.

The Board was asked to approve the new organizational chart and the job descriptions as presented.
