V. Migrating Computer Records

Mr. Goergen stated that the Board became aware that records are not kept on a centralized server and routinely backed up. He stated that consistent with good business practices, the Board is directing the Geauga County Health District to move any documents regarding health district business from pc’s to a server that is backed up. This will allow access to appropriate personnel including the Health Commissioner. An email from Kate Jacob will go out to the staff regarding this issue.

Mr. Mix stated that this would require a lot of training. He felt that since the skill level of the staff is unknown, that training might take a while. Mr. Mix stated he had emphasized the importance to the staff of saving their documents on the server to ensure documents can be backed-up. This would make it easier when a pc must be replaced due to malfunction. Mr. Mix stated that he felt it would take several hours a day for several weeks.

Mr. Mix stated we currently have two servers. Environmental Health has a server and Personal Health Services has a server. There is also a file for financials. He stated we could ask the county DOIT center can provide a server and maintain it as well. This would eliminate the burden on the Geauga County Health District.

Mr. Mix said that the staff use flash drives for backup of their documents. Mr. Goergen stated that he felt it was not unreasonable to eliminate the usage of flash drives because of virus potential. Ms. Jacob that access to the USB ports can be eliminated as well. Mr. Goergen asked how quickly Mr. Mix could eliminate that access. Mr. Mix stated he would let the Board know.

Mrs. Livers moved to begin migrating all records related to the business of the Geauga County Health District to one of the health district approved servers and prohibit use of all USB devices on Health District computers. All migration and policy changes shall be completed by December 31, 2016 and recorded in the
appropriate IT policies. Mrs. Whitright seconded the motion. Motion carried with a roll call vote. Mr. Goergen, yes; Mrs. Livers, yes; Mr. Gragg, yes; and Mrs. Whitright, yes.

VI. Succession Plan

Mr. Goergen stated that due to Mr. Weisdack’s and Mr. Tusick’s retirement it became evident that a succession plan is needed. He asked the other members for input of how to proceed. Mr. Weisdack stated that not all health districts have a succession plan; it just depends on the Board’s wishes. Mr. Goergen stated he would like a backup of key personnel, but not necessarily by the same person. That breaks the duties up to make it an easier workload.

Mr. Goergen stated that he would like some discussion at subsequent meetings.

Mr. Goergen asked if the health district currently uses an outside agency to do background checks. Mr. Weisdack indicated that there was not any agency used. Mr. Goergen stated that this needed to be done due to liability issues. He feels that it would be prudent and the prosecutor’s office strongly suggests background checks on all new hires. Kate Jacob stated that the retention letter from Mr. Embleton showed slightly different fees than had originally been discussed. Mr. Embleton’s fees were slightly higher, but the fee for his associate would actually be less than had originally discussed. She asked that the Board give Mr. Goergen the authority to sign the retention letter.

Mrs. Livers moved based on the recommendation of the Geauga County Prosecutor’s office and its oversight of the retention letter propose that the Board authorize Timothy Goergen, President of the Geauga County Board of Health to sign the agreement to the retention letter.
