V. Environmental Health Program Update
   a. Kenston Middle School

      On October 3, 2017, Mr. Shubick received a call from the Assistant Superintendent of Kenston Schools. The call was regarding teachers, staff and students becoming ill because of fume from a roofing project that was going on at Kenston Middle School.

      Initially, the school officials decided that they would shut the school down for the rest of the week. Then they decided that they would move the students into another school. Mr. Weisdack told them that he wanted the air tested before allowing students and staff back into the school. Mr. Weisdack and Mr. Shubick fielded calls from the parents regarding this issue.

      Mr. Weisdack reported that they were still gathering information. The MSDS for the products being used showed that they were very toxic.

      There is a special board meeting scheduled on October 27, 2017 at 3:00 p.m. regarding this issue. The operators and owner were notified of the hearing. Kate Jacob, Assistant Prosecuting Attorney will also be present at the meeting.

      There were 29 confirmed cases of communicable diseases during the month of September. Thirty-four percent were STDs.

   c. Nursing Services

      Mrs. Andrews stated that immunization clinics have been very busy. Flu clinics have started including a special employees-only clinic.

      The nurses have completed immunization education for 27 of 31 schools and spoke at two Amish school teacher meetings about upcoming vision screening, immunization schedules, and communicable disease reporting. Educational packets were distributed. They also provided TB skin tests to the residents at Amelia Grace Assisted Living.

      1. Public Health Emergency Preparedness (PHEP)

         Mrs. Andrews reported that we have received approximately $8,200.00 for this grant since August. There are still issues with the grant at the state level. At each conference call with ODH, there is discussion about the grant deliverables.

         2. Immunization Action Plan (IAP)
We have received approximately $4,800.00 since May for the grant. ODH has received multiple complaints from health departments regarding the inability to achieve full reimbursement for some of the deliverables. Due to those complaints, they have restructured some of the funds.

3. Maternal Child Health (MCH)

The new grant period has just begun. The concentration of deliverables will be on Cribs for Kids and Nutrition/Physical Activity for school-aged children.

Mrs. Andrews explained that we have agreements with Birthright of Geauga County and Middlefield Care Center to distribute cribs to qualifying families in the county.

The nurses are working with the Geauga Nutrition and Activity Partnership to develop a plan to increase water, fruit and vegetable intake for children.
