He needs to submit the drawing, pay the fee and have the evaluation done. If the system fails, grant funding may be available to assist him with the installation of a new system.

V. Environmental Health Program Update
   a. Private Water Survey

We recently had a survey of the Private Water Systems Program. Based on the survey the Geauga County Health District has been put on the approved list.

b. Rabies

We have had our first case of bat rabies in Geauga County this month. A 90-year-old Geauga County resident was bitten on the ankle by a bat at her home. We sent the animal in to ODH for testing and it was positive for rabies. The resident has completed her post-exposure treatment and is doing well.

c. Ohio Department of Agriculture Survey

Mr. Weisdack reported that he has received the results of a recent ODA survey of the food program. Because of the personnel issues we have experienced, we have been put on provisional approval. We have 45 days to develop an action plan. Once we have completed the plan, they have the option of putting the Geauga County Health District back on the approved list. The representatives from ODA have graciously offered training to our staff.

VI. Health and Wellness
   a. Public Health Emergency Preparedness

Mrs. Andrews reported Tammy Spencer and Robyn Bull have been completing classes, workshops and activities for grant deliverables.

b. Disease Surveillance

There were 24 confirmed cases of communicable diseases during the month of August. Forty-two percent were STDs.

c. Nursing Services

Mrs. Andrews stated that immunization clinics have been very busy and running over time-wise. The Amish Well Child Clinic for September is full (25 clients) and there are 8 clients on the waiting list.

d. Grants

   1. Public Health Emergency Preparedness (PHEP)

   There are 45 deliverables for this grant with 11 deliverables due this month. It has been very frustrating. Documents keep changing and promised trainings have been delayed. Other health departments have indicated that they have the same frustrations. ODH staff recommends to continue to voice concerns.

   2. Immunization Action Plan (IAP)
We have received approximately $3,500.00 since May for the grant and expect to receive approximately $3,700.00 more by August.

3. Maternal Child Health (MCH)

This grant period ends this month. We received a NOA for the next grand period for $49,785.00.

VII. Accreditation

She also provided information to the Board which shows the timeline we will follow to become accredited. The plan is to apply in January 2018. Once we apply, we have one year to supply all the documents. Ms. Gigliotti stated that the Strategic Plan is being revised to align with the PHAB requirements.

An internal assessment was recently launched to the staff. She will provide information on the results at the next meeting.

Ms. Gigliotti reported that there have been two meetings held with community stakeholders for the Community Health Improvement Plan (CHIP). The CHIP will be completed in November 2017.

Mr. Weisdack stated he has contacted Kent State University. They can provide a new program to teach the accreditation process to students. Representatives will be coming to the health district in October to discuss the pilot program.

Ms. Gigliotti reported that to date, the Geauga County Health District has spent over $90,000.00 on Accreditation.

VIII. Financial Report/Administration

Mr. Litke provided a report showing the trends for revenue vs. expense for the last few years. It included both the general fund and the special funds. There have been several years that the expenses were higher than revenue in the general fund. The special funds have not shown that trend.

Mr. Litke explained to the Board that the State Auditor and the Budget Commission wants the health district to spend down the cash carryover. The State Auditor also said that a fiscal coordinator needs to be hired.

Cost analysis need done for all programs. Mr. Litke will be working on those to get fees adjusted. He will also be working on the 2018 budget soon.

Mr. Litke reported that he has reviewed the personnel policy and has made notes on changes that should be made. He will be reviewing the changes and going through the entire policy with Mr. Weisdack. In addition, all job descriptions need to be updated.

A copy of the PEP Annual report was provided to the Board.
