VI. Population Health

Dr. Wyers reported there were 35 communicable diseases last month. Rachel McDade will be covering as our contract Epidemiologist through an agreement with Lake County General Health District. She will cover communicable disease cases for 20 hours per week.

Amish Well Child clinics will begin February 20 and will be held the third Wednesday. Volunteers will be providing the support needed at the clinics. Appointments for the clinics are being taken.

Dr. Wyers explained that in order to sustain the clinics, fees need to be set. A survey had been done with the families that come to the clinic. Most stated that they would be willing to pay administration fees so that the clinics could be held.

Dr. Wyers provided the Board with a list of proposed fees for the Board to consider. Because of time restraints, the Board discussed the suspension of the three-readings rule to facilitate putting the fees in place prior to the clinics.
Dr. Wyers reported that the nurses will no longer be providing services at the Geauga County Department on
Againg. The agency recently terminated their contract because they hired their own nurse. This will result in the loss of $4,800.00 per year.
