They agreed to have it done and rescheduled with the inspector in early September 2019.

Because there was no quorum, the other Administrative Hearings will be rescheduled for the July 2019 meeting.

6. Population Health Update

Dr. Wyers stated she received approximately 45 resumes for public health nurse position. Since Mary Ann Marsh has given notice of retirement, two public health nurses will be hired. One nurse will be full-time and one will be part-time until October 1, 2019. Dr. Wyers has completed eight interviews. The final decision will be made by the end of the week.

The number of surveys needed for the Community Health Assessment have been met. A meeting will be held with the Hospital Council of Northwest Ohio to discuss the next step.

Rachel McDade and Dr. Wyers made contact with representatives at Chagrin Falls Park Community Center to discuss activities that GPH could provide. Department on Aging previously provided services at the community center but have moved. Residents who frequented lunches that were provided do not attend the new location. There has been a decrease in the services the community center can offer because of the move. Ms. McDade is distributing surveys to the residents who still come to the community center for lunch. In addition, there is an opportunity for GPH to provide health education at a summer camp held at the center.

Dr. Wyers reported that plans are being made to have a table at the Geauga County Fair this year.

7. Health Commissioner Update

Mr. Quade confirmed that there would be a staff in-service on July 5. The other county offices will be closed that day, but he indicated that GPH will use this day to go over the Strategic Plan, personnel policy and other items that need staff input. This also will not cause an inconvenience to the public. Lunch will be provided.

Plans were made to take a photo of the entire Board in August.

Mr. Quade reported that a grant has been applied for through Special Olympics to do research. The research will be to identify public health best practices for inclusion of people with developmental disabilities. The grant, if awarded, would be for approximately $12,000.00.

Mr. Quade applied for a seat on the Public Health Advisory Board. The Board is responsible for reviewing proposed legislation that impacts public health. There are many other agencies that are also on the Board.

Mr. Quade recently received an email from the Executive Director of PHAB asking him if he would be interested in being on the accreditation committee. This committee decides who becomes accredited. He stated that he would have to recuse himself from the decision regarding Geauga Public Health.

Mr. Quade provided an info-graphic and explained the different plans that must be completed for PHAB and how all the plans need to align. He explained how all the processes for the plans took place. He stated that new for GPH is a Business Plan. This plan will show we are intentional by outlining our budget process, how we generate revenue and apply for grants, provide a schedule for reviewing fees, as well has how costs are controlled.

8. Old Business

There was no old business.

9. New Business

The motion for an appropriation transfer will be voted on at the next regular meeting.

Mr. Quade reported that letters were received for each Board member from a resident who had turned in a nuisance complaint. The Board members present read their letters. Mr. Quade explained that the resident was not
happy that the new system had not been installed. He explained that the complainant was complying with everything that he had been asked to do, and that the process takes time.
