The *Geauga County Health District*

wants you to know:

BCMh

has the ANSWER!

(What is the question?)

Funded by the Ohio Department of Health
BCMh Program

Does my child need ear tubes?

Does my teenager have scoliosis?

Who can help cover the cost of medical supplies for my Child with diabetes?

How can I find a doctor for my child that specializes in treating epilepsy?

My health insurance won't cover the cost of my child's hearing aids. Can someone help?

Is there a doctor in the area who can fix my child's crossed eyes?

BCMh may be able to provide services to help diagnose or treat your child's chronic health problem!

The Bureau of Children with Medical Handicaps is a health care program in the Department of Health that provides services to children with special health care needs.

These needs may include:

- surgery,
- days in the hospital,
- prescription drugs.
- special equipment and supplies,
- therapies,
- hearing aids.
- special formula,
- and other services related to your child's diagnosis.

How can you learn more about the BCMh program?

Call the Geauga County Health District
285-2222 or 564-7131 or 834-1856
extension 1900
and ask to speak with one of the nurses.

BCMh may have the answer for your child!
