HOUSEHOLD WATER SYSTEM EVALUATION FOR SALE OF or RE-FINANCING OF PROPERTY

WAIVER SHEET

IMPORTANT NOTE: *ONCE A WRITTEN REQUEST HAS BEEN MADE FOR THIS SERVICE, THE FEE IS NON-REFUNDABLE.*

The professional *"OPINION"* may be rendered without knowledge of some of the individual components of the water supply system, and is highly contingent upon observational information. Since systems can be either totally or partially covered and every component cannot be viewed, this *"OPINION"* does not guarantee the future performance of the system.

This department will perform an evaluation of an existing water supply system upon receipt of a completed application and fee payment. This service will consist of an evaluation report based on information from any of the sources listed below:

1) Records and permits on file with this department.
2) Property owners.
3) Observations made during the field visit.
4) Laboratory results of water sample collection.

The department=s evaluation may be inconclusive because of lack of information, forms, records, or field visit; however, your signature below acknowledges your understanding of this service.

The requestor is under no obligation by this department to have this evaluation conducted. Field visits or inspections will only consist of observation assessments and sample results.

BOTH LINES *MUST* BE SIGNED
